## Curriculum Vitae of Melanie Wilke

---

### Personal

Date of birth: May 31, 1976  
Place of birth: Eilenburg, Germany

### Education:

- 2001- 2005 PhD (Dr. rer. nat) in Neural and Behavioral Sciences (grade: summa cum laude), Max Planck Institute for Biological Cybernetics (Dept. Cognitive Neurophysiology); Advisors: Prof. Dr. N.K. Logothetis and Dr. D.A. Leopold  
*Topic: 'Neuronal underpinnings of perceptual suppression'*
- 1997-2001 M.A. in Psycholinguistics, Neuropsychology and Neurobiology (grade: 'very good'), Ludwig-Maximilians-University, Munich, Germany  
  
Master Thesis at Max Planck Institute for Human Cognitive and Brain Sciences, Leipzig; Advisor: Dr. E. Ferstl  
*Topic: 'Effects of encoding perspective on recognition of textual information following damage of the frontal lobe'*
- 1995-1997 Study of Political Sciences and Literature at the University of Leipzig and at the Ludwig-Maximilians-Universitaet, Munich (LMU)

## **Working experience:**

Since 8/2004 Postdoctoral Research Fellow in the laboratory of Dr. D.A. Leopold, UCNI (NMIH)

- *Simultaneous recordings in LGN/Pulvinar and visual cortex in awake monkeys reporting subjective visibility*
- *Functional imaging in awake monkeys to investigate the discrepancy between BOLD and single cell studies in respect to perceptual modulation in early visual cortex*
- *Neurotransmitter microinjections during awake monkey fMRI*

2001-2004 PhD student at Max Planck Institute for Biological Cybernetics, Tuebingen;  
Advisors: Prof. N.K. Logothetis, N.K. & Dr. D.A. Leopold

- *Human psychophysics to develop a paradigm to investigate perceptual visibility in monkeys*
- *Single unit and Local field potential recordings in striate and extrastriate visual areas in monkeys reporting stimulus visibility*

1997-2001 Student Assistant at Max Planck Institute for Psychological Research,  
Munich; Advisor: Dr. L. Knuf

- *Organizing and conducting psychological experiments in human subjects*

## **Internships:**

03-05/2001 Max Planck Institute for Biological Cybernetics (Dept. Cognitive  
Neurophysiology); Advisor: Dr. D.A. Leopold

- *Designing, conducting and analyzing psychophysical experiments investigating perceptual memory*

08-10/1999 Max Planck Institute for Human Cognitive and Brain Sciences (Dept. Cognitive  
Neurology); Advisor: Dr. E. Ferstl

- *Planning and conducting text comprehension experiments in healthy elderly and patients with frontal lobe damage*

03-04/1999 Max Planck Institute for Psychiatry (Dept. Neuropsychology);  
Advisor: Prof. J. Zihl

- *Neuropsychological diagnostic of perceptual and cognitive impairments in patients with neurological and psychiatric disorders*
- *Assistance in the therapy of visual disturbances in patients with neurological disorders*

## **Professional Skills:**

### *Programming:*

- Data acquisition software for monkey training and neurophysiological testing (programming languages: C, TCL/TK)
- Creating visual stimuli using custom written software ('stim')
- Neurophysiological data analysis (single cell and local field potentials) in MATLAB
- Neuroimaging analysis software (afni) (currently learning, beginner's level)

### *Experimental skills:*

- Behavioral training and testing of monkeys
- Preparation and conduction of neurophysiological experiments with alert monkeys: multielectrode recordings with Thomas and Alpha Omega system
- Surgical procedures: Headpost/chamber surgery, dura scraping
- Neurophysiological data analysis (single unit and local field potentials) with MATLAB
- Statistical analysis with MATLAB and SPSS
- Basic skills in awake monkey imaging
- Microinjections during awake monkey imaging
- Standard neuropsychological test batteries

## **Publications:**

### *Articles:*
